muhamadnursyami.vercel.app

A team worker and penultimate-year undergraduate student with an insatiable appetite for the challenge of learning new things in technology, I recently completed an application system for my campus, which demonstrated my proficiency in website application development. I thrive in a collaborative environment and demonstrate a desire to learn, adapt and survive. I have strong technical skills honed by completing 3 major projects using various programming languages. Experience with designing, creating and maintaining websites in various programming languages.

EXPERIENCES

Universitas Maritim Raja Ali Haji - Tanjung Pinang (Freelance)

- **SISTEM AUDIT MUTU INTERNAL**

Fullstack Developer

May 2024 – June 2024

- Developing an SISTEM AUDIT MUTU INTERNAL application for Raja Ali Haji Maritime University with the team, to facilitate internal quality audits which were initially manual into an integrated application.
- Management of tasks in creating applications consisting of 2 developers.
- Uses Agile development methodology, sprints, and uses Docs for project management.
- Leveraged PHP, CodeIgniter 4, TCPDF and MySQL to develop and build dynamic and responsive websites with my team.

Skilvul - Remote (Studi Independen)

- **LITERASI KITA**

Fullstack Developer

Aug 2024 – Dec 2023

Literasi Kita is an application that provides books or online learning videos to facilitate the problem of low interest in reading books in children aged 18 years and under. This application can help increase interest in reading books because books are provided online without having to buy books physique.

- Utilizes MongoDB, ExpressJS, ReactJS, NodeJS, Redux, Cloudflare, Cloudinary, Midtrans, Javascript and Bootstrap5 to develop applications dynamically and responsively with team.
- Collaborate with the team for the integration of Cloudflare and Cloudinary technology as cloud storage to store books and videos online. As well as integration of online payment features via the Midtrans Payment Gateway.
- Uses Agile development methodology, sprints, and uses Trello for project management.

Tanjungpinang City Education Department - Tanjungpinang (Freelance)

- **SICERDIK (School Transfer Letter Application Website)**

Back-End Developer

Oct 2022 - Dec 2022

- Developed SICERDIK, a collaborative project with the Tanjungpinang City Education Department and teammates, to facilitate student transfers between Tanjungpinang and other regions.
- Working closely with developers and designers to contribute to the app's workflow and design process.
- Streamlined the online processing student transfer certificates for over 5,000 students across 53 elementary schools and 16 middle schools in Tanjungpinang City.
- Leveraged JavaScript, MongoDB, and Express.js to develop and construct dynamic and responsive websites with my team.

EDUCATION

Bachelor in Informatics Engineering, Universitas Maritim Raja Ali Haji

2021 - Present

- Current GPA: 3.59/4.00

HONORS & AWARDS

- **Red Hat® Certified System Administrator (RHCSA®)**

2023

Awarded to 130 people who passed out of 150 exam participants, on the occasion of the RedHat Certified System Administrator Independent Study Year 2023.
